***Cautionary Information Regarding Trading in the Company’s Securities.***

The Company’s securityholders are cautioned that trading in the Company’s securities during the pendency of the Chapter 11 Filings is highly speculative and poses substantial risks. Trading prices for the Company’s securities may bear little or no relationship to the actual recovery, if any, by holders thereof in the Company’s Chapter 11 Filings. Accordingly, the Company urges extreme caution with respect to existing and future investments in its securities.

A plan of reorganization or liquidation may result in holders of the Company’s capital stock receiving no distribution on account of their interests and cancellation of their existing stock. If certain requirements of the Bankruptcy Code are met, a Chapter 11 plan can be confirmed notwithstanding its rejection by the Company’s equity securityholders and notwithstanding the fact that such equity securityholders do not receive or retain any property on account of their equity interests under the plan.
